

July 10, 1931.

Mr. George Stoll,  
Burnt Fork, Wyoming.

Dear Mr. Stoll:

RE: BURNT FORK DIST.

Complaint has come to this office of excessive use of certain irrigators located on Beaver Creeks in Summit County, Utah, and I am writing a letter to the four particular ones mentioned, copy of which is enclosed.

I understand from Mr. George W. Smith that you are willing to act further as my field representative in an effort to obtain an additional supply for the water users lower down on the stream by some arrangement with these four upper water users who could very probably spare some of their present supply without serious loss. I am not advised as to what their legal rights are so it will have to be, in a measure, the result of friendly negotiations. Mr. Smith assures me that you are willing to take care of this work without any charge to this office and with that understanding you are hereby authorized to act as above noted.

Yours very truly,

State Engineer.
